Forecast For East of England
Issued by Met Office Exeter
at 1600 on Tuesday 20 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Thunderstorms easing overnight, but staying muggy. Hot again Wednesday.

This Evening and Tonight:
A very warm evening, with thundery rain in the west gradually dying out. Then staying staying dry through the rest of the night, with long clear spells, and feeling humid. Minimum temperature 15 deg C (59 deg F).

Wednesday:
Another sunny, very warm, or hot day, although staying a little cooler along the coast. The odd thunderstorm remains possible later in the day. Maximum temperature 31 deg C (88 deg F).

Outlook for Thursday to Saturday:
Sunny Thursday and still very warm or hot. Less hot Friday, and perhaps cloudier at first, but staying dry and largely sunny. Cloudier and cooler Saturday with heavy thundery showers.
